Vallejo Scenics

Resin bases and accessories
for modeling projects

Vallejo Scenics

EN Vallejo Scenics is a range of diorama bases and accessories. The assortment includes reproductions in 1/35 and 1/72 scale of urban elements, modern, as well as from WWII, designed to provide the setting and details for vignettes and dioramas. The Scenics products are suitable for use as simple bases or can be further enriched with shrubbery, trees, telegraph posts, street lights, military equipment and figures, or with sections of ruined walls and buildings. The bases and accessories are precast in a lightweight resin which has a matt white finish and is easy to cut and adapt to different sizes; the material permits sanding and painting as well as any further weathering processes.

ES Vallejo Scenics es una gama de bases y accesorios para dioramas. El surtido incluye reproducciones a escala 1/35 y 1/72 de escenarios, así como complementos urbanos tanto modernos, como de la Segunda Guerra Mundial, diseñados para detallar y ambientar dioramas y maquetas. Las diferentes bases pueden utilizarse para ubicar figuras y vehículos, además de tantos complementos como el modelista decida; secciones de edificios, ruinas, muros, ambientación natural, árboles, postes telegráficos, farolas, etc. Las piezas han sido moldeadas en una resina ligera, fácil de cortar y lijar, presenta un acabado blanco mate que facilita la aplicación de pintura y los procesos de envejecido.

SC201
