ATLANTIS

MODEL KITS FOR ALL AGES & SKILL LEVELS

Non-Firing All-Plastic Replica

MANUFACTURED WITH PRECISION & PRIDE

ATLANTIS TOY & HOBBY INC.

Origins & Founding

Atlantis Model Company was founded on Long Island, New York in 2009 by Peter Vetri and Rick DeFavero. The company started as a retail business in 2000, but from the start we dreamed of having our own brand of model kits like the companies that inspired us from our youth. The first kit produced was the Lindberg classic UFO followed by many more including the Aurora Zorro, T-Rex, Viking Ship and more. We made new original tooling to reverse-engineer the Aurora Blackbeard, American Bison and Black Bear, as well as a product line of flying saucers. This was a slow process initially, with only a few Atlantis offerings per year.

Atlantis Key Milestones

Everything changed for Atlantis in August 2018. We were able to purchase a vast tooling bank of Aurora, Monogram, Revell, Renwal and others, some dating back to the early 1950's. This presented Atlantis with a great opportunity to develop a comprehensive product line for the first time. With automotive, aircraft, ship, military, figure and space tooling at our fingertips, to start we partnered with several local domestic injection molders and started releasing kits at the end of 2018. Two years later in July 2020 Atlantis was able to complete a deal with Round2 to acquire an additional tooling bank of Pyro, Superior, Lindberg, Adams, Educational Products and Varney molds that filled holes in the Atlantis product line, and more importantly, saved additional vintage tooling from disappearing from the market forever.

What Makes Atlantis Unique?

We take our tagline "preserving the past while building the future" to heart. It is an honor to bring back historic model kit tooling and the related archive materials; as well as preserving and re-issuing classics that have not been available in decades. We are a Made in the USA company, which includes our model kit parts, packaging, decal sheets, instructions and chroming. We now do all of our injection in-house at our facilities in Deer Park, New York, keeping all tooling and archive materials in the same single location. Atlantis staff manages quality control; the same staff handles customer service, shipping and parts replacement.

Atlantis Business Focus & Mission

We are committed to providing unique customer service at Atlantis. We are here to answer phones, emails and social media posts Monday to Friday every week, and our parts department is second to none. We offer nostalgia for hobbyists who built classic kits decades ago and now have the opportunity to revisit those memories with our updated Atlantis releases of those vintage kits. Our products appeal not only to hobbyists that built the originals, but also to a new group of enthusiasts that can help grow the hobby for future generations. We work with hobby retailers, clubs and events to promote our passion, and provide lower skill level kits for make-and-take events whenever possible. We are proud to be included in the latest edition of Thomas Graham's Guide to Aurora Models and flattered to have our brand associated with industry heroes. Stay tuned, the best is yet to come.

Note: Images are not final and subject to approval. This applies only to the new items.

"World's Fastest '57 Chevy"

AND MORE!

ATLANTIS

NEW FOR 2026!

We are excited to introduce our new line-up of products planned for 2026, proudly crafted in the USA with the same commitment to quality and craftsmanship you expect from Atlantis. As development continues, artwork and shipping dates may be refined, but every item will go through quality control checks before a single unit is shipped from our facilities in New York.

We invite you to follow along as these releases take shape and to be part of a growing community of passionate hobbyists who share our excitement for what's coming next.
