Iconico **marchio modellistico giapponese**, è considerato un punto di riferimento a livello mondiale per i suoi **kit di aerei** in scala di elevata qualità e cura del dettaglio. **Nasce nel 1941** con la produzione di modelli di alianti in legno.

Il passaggio al modellismo in plastica avviene nel 1961 con il celebre modello in scala 1/450 della corazzata giapponese Yamato. Dagli anni '60 in poi il marchio ha avuto una progressione espansione ottenendo un successo internazionale che dura ancora oggi. Celebre la sua linea dedicata agli aerei, alle **auto in scala 1/24** e alle navi "waterline" in scala 1/700.
